

Junior Kiddie Campus **Miss Amanda and Miss Mary Ann**

The month of February sure did fly by; it's hard to believe that spring break will be upon us in just a few weeks. I know we are all looking forward to the warm weather again. Thank you to all the parents that brought in a special card or treat for Valentine's Day. The children really got excited that they had a whole bag of treats to take home.

Favorite Activity: During Dinosaur week the children really enjoyed listening to stories about the dinosaurs. Some stories told us facts about the dinosaurs and some were pretend. They also enjoyed stomping around like dinosaurs and roaring like them too. We used our Stegosaurus puppets that the children made with their "dinosaur name" to sing a song, "Little Stegosaurus". To incorporate math skills such as measuring I measured the children to see how many dinosaur teeth tall they were. Each tooth was 6.5 inches tall.

During Space week we went on an adventure into space using some astronaut props. We put on spacesuits; we climbed aboard a rocket ship, counted down, and blasted off. We saw some pretty neat things while we were up there. According to the children we saw meteors, stars, planets, the moon, the sun, other astronauts, and aliens.

Field Trip: Remember that our field trip to the Plum Library is on Thursday, March 11. If you are driving your own child you have the option to just meet us at the library at 9:35. If you are a volunteer driver or your child will be riding with a volunteer, your promptness at 9:00 will be greatly appreciated in order to allow time to get children situated in your car. Thank you.

Themes for March: Dr. Seuss, Library, St. Patrick's Day/Leprechauns, and Open Exploration

Spring Break: Just a reminder that spring break starts Monday, March 29. Class resumes on Tuesday, April 6.
