

Senior Kiddie Campus
Miss Amanda and Miss Hayley (MWFam)

I hope everyone had a relaxing Thanksgiving. It's hard to believe that winter is upon us...time is just flying by.

Favorite Activity: In the area of art the children enjoyed making one of a kind turkey feathers which were displayed in the hallway. I hope everyone enjoyed looking at our colorful turkey each morning! We also made "Turkey Feather Names". This gave the children an opportunity to identify the letters in their names, practice writing their name, and also how many letters they have in their name.

We did some storytelling about...What you would do with a pet turkey... I hope everyone enjoyed reading their children's stories!

Another big hit was a science experiment where we predicted what would happen to the piece of candy corn first in water and then in milk. We then tested the candy corn and observed what was happening. We learned that the candy "dissolved" in both the water and milk.

Show and Tell: Show and tell will be on Wednesday, December 10. Please ask your child what he/she thinks a reindeer might eat and bring that item in to share. Please limit what they bring in to 1 or 2 things.

Winter Clothing: It is very important to send your child in the proper clothing now that the weather is getting colder. We will be going outside everyday for at least a few minutes, so we can get that wonderful fresh air we all need (Weather Permitting). Please make sure your child has a hat, gloves, warm jacket, boots, and snow pants (for when there is snow on the ground).

Conferences: I will be holding conferences in early January. Be on the lookout for a sign up sheet in the coming weeks.

What's Ahead: Coming up in December our themes are: Gingerbread People and Holiday Happenings. Most of the month will consist of activities involving snowflakes, snowmen, winter weather, reindeer, and learning songs for the music program.

**Holiday Music Program: Wednesday, December 17- MWF (am) class will be 11:00
MWF (pm) class will be 3:00**
